

Hoofield Hall Barns | Huxley, Cheshire CH3

PROJECT DETAILS

Scope
Redevelopment of Grade II listed barns

Architect
D2 Architects

Developer
Cheshire Barn Homes

Bricks
68mm Olde Reclamation Clamp
Reclamation Soft Red Half
Round Coping

Hoofield Hall Barns comprise of six elegant Grade II listed barn conversions within a traditional courtyard overlooking the historic Hoofield Hall. Formerly an arable and dairy farm, the superbly-appointed development offers beautiful new homes within a tranquil setting.

A sensitive approach was required for the restoration of the buildings. Imperial Bricks worked closely with award-winning developer Cheshire Barn Homes and local conservation officers to supply a blend of bricks which would not only match the original structures for infill and repair work, but also enable the newly constructed elements to preserve the rural character of the development.

Imperial sized Olde Reclamation Clamp handmade bricks were chosen for their ability to offer an attractive reclaimed look. The courtyard walls were completed with Reclamation Soft Red copings for a traditional appearance.
